Highway Safety Information Systems

The Westin, Charlotte, NC

37th INTERNATIONAL FORUM on TRAFFIC RECORDS & HIGHWAY SAFETY INFORMATION SYSTEMS

July 31 – August 3, 2011
The Westin, Charlotte, NC

What is the Forum?

The Traffic Records Forum is the largest conference of its kind in the world, bringing together professionals from many disciplines for the open exchange of research, innovation and techniques in the collection and use of traffic safety data. Drawing more than 300 participants annually, the Forum strives to provide the latest information on methods and technological advances that are designed to improve the quality and completeness of traffic safety data and the efficient and effective use of these data in developing programs and policies to reduce crashes, fatalities and injuries on our roadways.

The Forum Program is developed by the Association of Transportation Safety Information Professionals (ATSIP), a voluntary professional organization dedicated to improving traffic safety data systems.

Who Should Attend?

- Collectors, program managers and users of highway safety information
- Administrators and policy-makers
- Representatives of government agencies and research institutions

What Topics Will Be Addressed?

- Crash, roadway, driver, vehicle, citation/adjudication & EMS information
- Emerging technologies for data capture
- Best practices in the dissemination and use of data
- Integration of traffic, criminal and public health data
- Data standards (MMUCC, MMIRE, NEMESIS, ANSI D.16.1, etc.)

Check the ATSIP website in December 2010 for details on the 2011 Forum
